MARGETIS
MARITIME | CYBER SECURITY

COURSE

Cyber Security Training

BRIEF COURSE OVERVIEW

This course will cover what Cybersecurity is all about, the risks that a Maritime company is exposed to ashore and onboard, along with the measures that a company should take to protect its assets from possible cyber threats.

REGULATORY REFERENCE

IMO, NIS, NIST Standards, BIMCO, TMSA, ISO27001, Law Provisions, Best Practices

COURSE CONTEXT

Through this course, the participants will have the opportunity to familiarize themselves with the risks coming from new technology, automation, and digitalization, the increased number of Cyber incidents, new regulations, laws, and commercial Cyber requirements.

Participants will be informed about the common types of threats and attacks on Cybersecurity as well as the defense measures that Maritime Companies can take to detect, prevent and defend against Cybersecurity issues.

COURSE OBJECTIVES

The objective of the course is to understand why Maritime Companies must take Cybersecurity measures to protect their assets and what each employee must do.
